SKILLS

Frontend : React.js, Next.js, Bootstrap, Tailwind, SCSS, CSS, HTML.

State Management : Redux, Redux-Toolkit, Context API.

Testing: React Testing Library.

DevOps/Tools: GIT, GitHub, Webpack, Bitbucket.

Cross-domain/General: JavaScript, REST APIs, Performance Optimization, Responsive Design.

EXPERIENCE

Gray Matrix Solutions

Associate Software Engineer | Feb 2023 – Dec 2024

- **Talkk.ai (Conversational AI Webapp)**

Tech Stack: React, JavaScript, Sass, Bootstrap, Talkk CMS

- Built intuitive and user-friendly chatbot interfaces using React, Sass, and Bootstrap to enhance user engagement.
- Developed reusable and dynamic React components for chatbot responses, conversation flows, and interactive widgets.
- Integrated and customized Talkk CMS to streamline content management for chatbot dialogues and AI configurations.
- Ensured the chatbot application was fully responsive and optimized for different devices and screen resolutions.
- Collaborated with backend teams to align the AI models' output with frontend UI requirements and ensure data accuracy.

- **RMA QMS (Mortgage Webapp)**

Tech Stack: React, Context API, JavaScript, Sass, Bootstrap, HTML

- Designed and implemented reusable React components to ensure consistency across web pages and reduce development time.
- Translated complex Figma designs into fully responsive and pixel-perfect user interfaces using React, Sass, and Bootstrap.
- Integrated RESTful APIs to enable seamless communication between frontend and backend services.
- Improved application performance by optimizing React rendering processes and reducing load times.
- Ensured cross-browser compatibility and responsiveness for web pages, optimizing for various devices and screen sizes.
- Utilized state management tools like Context API to efficiently manage data across the application, ensuring smooth and consistent user interactions.

- **School Management System**

Tech Stack: React, JavaScript, Sass, Bootstrap, HTML

- As a Frontend Engineer at MAK { Byte }, I worked on React.js projects, where I developed and maintained dynamic web applications, implemented reusable components, and optimized frontend performance to enhance user experience.

EDUCATION

- Bachelors of Commerce Mumbai University, India - 2022
- Udemy Bootcamp (React, JavaScript, CSS, HTML) - 2022
